

ASTANA MERY ADAM INTERNATIONAL FOUNDATION

Distinguished Heads of State, Prime Ministers, Ministers, and Government Leaders,

Astana Mery Adam International Foundation (AMAIF) is an international organization established to provide technical assistance to countries and companies in implementing programs and projects that positively impact the environment, ecology, and human well-being.

The Foundation offers a comprehensive financing mechanism for projects in key areas, including: biodiversity conservation, climate change mitigation, protection of seas, rivers, and lakes, prevention of land degradation, protection of the ozone layer and reduction of persistent organic pollutants, combating global warming, reforestation, waste recycling, establishment of industrial and research enterprises, as well as humanitarian, social, and food security initiatives.

The Foundation's overarching philosophy and effective use of donor capital aim to create a transparent system for timely assistance to populations and communities across various sectors of participating countries' economies. This approach will enable AMAIF to reach a new level in implementing food security and environmental programs and to join leading international charitable organizations in delivering global projects.

President of the Foundation:

Kurmanbekov Turarkhan Kadyrkhanovich

About the Foundation

AMAIF is an independent international organization providing:

- technical support,
- financial resources,
- donor capital,
- international expertise.

The Foundation focuses on projects with long-term positive impact on the economy, environment, and society.

Key principle: assistance without credit burden or debt obligations — delivering real resources and practical solutions.

Mission and Strategic Goals

To establish a global system of effective and transparent support aimed at:

- accelerating national economic development,
- ensuring rational use of natural resources,
- restoring ecosystems,
- improving the well-being of populations.

All activities are conducted in partnership with governments, with full respect for sovereignty and joint project governance.

International Relations and Agreements

ASTANA MEREY ADAM INTERNATIONAL FOUNDATION

AMAIF maintains official relations and signed agreements with key international institutions:

Memorandum of cooperation with the Project Implementation Agency of the International Fund for Saving the Aral Sea (IFAS), signed on July 13, 2023, in Tashkent following the presentation of the program “Sustainable Development of the Planet’s Ecosystem.” This expands joint activities under the “Environmental Restoration of the Aral Sea” project and provides access to regional Aral Sea programs.

Cooperation Agreement with the Chamber of Commerce and Industry of the Association of Southeast Asian Nations (ASEAN), signed on March 27, 2023. Development and signing of the Global Convention on Food Security and the Preservation of Life and Health.

Convention on education and capacity building for environmental challenges and clean water, signed with the Government of Indonesia.

Convention on clean water and clean air, signed with the Government of Hong Kong. Program for the rehabilitation of cities after natural disasters, developed and approved with the Government of the Republic of Türkiye. IFAS and the ASEAN Chamber of Commerce and Industry are strategic partners of the United Nations under the Global Compact, providing AMAIF with access to UN programs and resources for sustainable development initiatives. Compliance with International Standards.

All activities fully comply with:

the 17 UN Sustainable Development Goals (SDGs), international environmental and social standards, ESG principles (Environmental, Social, Governance).

Key Programs of the Foundation:

Food Security Program

A full-cycle modernization of the agro-industrial sector, including advanced agricultural technologies, soil fertility improvement, clean product laboratories, storage, logistics, export, digitalization, and e-commerce.

Sustainable Ecosystem Development

Combating desertification, reducing emissions, constructing reservoirs, cleaning rivers/seas/oceans, pollution elimination, waste recycling, circular economy, and biodiversity restoration.

Special Program: “Aral Sea Ecology”

Comprehensive restoration of the Aral region: afforestation (saxaul and others), dust storm mitigation, local water bodies, modernization of hydraulic systems, ecosystem restoration, and social support for local populations (strengthened through cooperation with IFAS).

Marine and Ocean Cleanup / Waste Management

Large-scale cleaning of water bodies, elimination of plastic and industrial pollution, construction of waste-processing plants, development of waste management systems, and promotion of a circular economy. Areas of Support for Governments

Environment and Water Resources: purification systems, plastic reduction, reforestation, anti-desertification measures.

Infrastructure and Urban Development:

Sustainable cities, roads, airports, eco-friendly transport

ASTANA MEREY ADAM INTERNATIONAL FOUNDATION

Education and Healthcare

Universities, IT/AI education, hospitals, telemedicine, innovative technologies.

Economy and Industry:

Rare earth processing, green energy, innovative manufacturing. Financing Framework (Aligned with the 17 UN SDGs)

A full spectrum of funding areas corresponding to all 17 SDGs, including projects related to poverty reduction, food security, health, education, gender equality, water, energy, economic growth, infrastructure, inequality reduction, sustainable cities, responsible production, climate action, aquatic and terrestrial ecosystems, institutional development, and global partnerships. Financing Model and Joint Fund Establishment of a National Sustainable Development Fund under government supervision.

AMAIF acts as a key donor, strategic partner, and coordinator of international financing.

Advantages:

- No increase in public debt,
- Full government control,
- Attraction of international resources,
- Acceleration of project implementation,
- Increased investment attractiveness. Cooperation Mechanism (Steps)
- Signing of a memorandum,
- Development of a joint program,
- Approval of a project portfolio,
- Launch of pilot initiatives,
- Formation of working groups,
- Monitoring and public reporting. Expected Impact
- GDP growth,
- job creation,
- export expansion,
- reduced budget burden,
- environmental improvement,
- enhanced quality of life,
- increased international ratings.
